

Blue Current Asset Management Verification and Global Dividend Strategy Composite Performance Examination Report

December 31, 2024

Verification and Performance Examination Report

Blue Current Asset Management,
a division of Edge Advisors, LLC

We have verified whether Blue Current Asset Management (the “Firm”) has, for the periods from January 1, 2017 through December 31, 2024, established policies and procedures for complying with the Global Investment Performance Standards (GIPS®) related to composite and pooled fund maintenance and the calculation, presentation, and distribution of performance that are designed in compliance with the GIPS standards, as well as whether these policies and procedures have been implemented on a firm-wide basis. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. We have also examined the Firm’s Global Dividend Strategy Composite for the periods from January 1, 2017 through December 31, 2024.

The Firm’s management is responsible for its claim of compliance with the GIPS standards, the design and implementation of its policies and procedures, and for the accompanying Global Dividend Strategy Composite’s GIPS composite report. Our responsibilities are to be independent from the Firm and to express an opinion based on our verification and performance examination. We conducted this verification and performance examination in accordance with the required verification and performance examination procedures of the GIPS standards, which includes testing performed on a sample basis. We also conducted such other procedures as we considered necessary in the circumstances.

In our opinion, for the periods from January 1, 2017 through December 31, 2024, the Firm’s policies and procedures for complying with the GIPS standards related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been, in all material respects:

- Designed in compliance with the GIPS standards, and
- Implemented on a firm-wide basis.

A verification covering the periods from January 1, 2009 through December 31, 2016 was performed by another verification firm, whose report expressed an unqualified opinion thereon.

Also, in our opinion, the Firm has, in all material respects:

- Constructed the Global Dividend Strategy Composite and calculated the Global Dividend Strategy Composite's performance for the periods from January 1, 2017 through December 31, 2024 in compliance with the GIPS standards; and
- Prepared and presented the accompanying Global Dividend Strategy Composite's GIPS composite report for the periods from January 1, 2017 through December 31, 2024 in compliance with the GIPS standards.

A performance examination of the Firm's Global Dividend Strategy Composite covering the periods from January 1, 2009 through December 31, 2016 was performed by another verification firm, whose report expressed an unqualified opinion thereon.

This report does not relate to or provide assurance on any specific performance report of the Firm other than the Firm's accompanying Global Dividend Strategy Composite's GIPS composite report, or on the operating effectiveness of the Firm's controls or policies and procedures for complying with the GIPS standards.

N.A.1 - Information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

N.A.2 - The three-year annualized standard deviation measures the variability of the composite gross returns and the benchmark returns over the preceding 36-month period. The three-year annualized standard deviation is not presented for periods with less than 36 months of data.

Blue Current Global Dividend Strategy Composite includes all fully discretionary, fee paying accounts under management following a common investment objective, including those accounts no longer with the firm. Blue Current Asset Management offers pre-defined equity strategies using a team-managed approach. Prior to January 1, 2018, the GIPS Firm Definition included certain fixed income strategies; however, it was determined that these strategies were managed differently and did not meet the pre-defined, team-based approach required for inclusion in the GIPS Firm. The GIPS "firm" definition is the foundation to ensure all portfolio accounts within the division of Blue Current Asset Management are assigned to a composite. The Composite invests primarily in domestic or international securities the portfolio manager feels have the potential to deliver outperformance due to a combination of price appreciation and current income in the form of a dividend. The composite will typically invest in securities with a current dividend yield in excess of the broad equity markets with a history of consistently increasing the dividend rate and with what we believe to be strong fundamentals at an attractive price (i.e. low use of leverage, operating margins in excess of 5%, free positive cash flow yield, a price to earnings ratio at or below the market average, and earnings growth). The Blue Current Global Dividend Strategy Composite was created and inception on 1 January 2009. The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income. Net of fee performance was calculated using the highest allowable annual management fee of 1% applied monthly. The annual composite dispersion presented is a gross asset-weighted standard deviation calculated for the accounts in the composite the entire year. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. Past performance is not indicative of future results. The investment management fee schedule for the composite is 1% on the first \$5 million, 0.7% on the next \$5 million, 0.65% on the next \$10 million, 0.55% on the next \$30 million, 0.45% on the next \$50 million. Fees for assets over \$100 million are at a rate customized to the client. Actual investment advisory fees incurred by clients may vary. The benchmark MSCI World Index includes 1650 stocks located across 23 developed countries and captures approximately 85% of the free float-adjusted market capitalization in each country. MSCI uses the maximum withholding tax rate applicable to institutional investors in calculating MSCI net dividends. Withholding taxes may vary according to the investor's domicile. Composite returns are calculated net of withholding tax and represent investors domiciled primarily in the United States. The MSCI Indices uses withholding tax rates applicable to GHI Country holding companies. The benchmark MSCI World High Dividend Yield Index is based on the MSCI World Index, its parent index, and includes large and mid-cap stocks across 23 Developed Markets countries. The index is designed to reflect the performance of equities in the parent index (excluding REITs) with higher dividend income and quality characteristics than average dividend yields that are both sustainable and persistent. The index also applies quality screens and reviews 12-month past performance to omit stocks with potentially deteriorating fundamentals that could force them to cut or reduce dividends. MSCI uses the maximum withholding tax rate applicable to institutional investors in calculating MSCI net dividends. Blue Current claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Blue Current has been independently verified for the periods January 2009 to December 2024. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Blue Current Global Dividend Strategy Composite has had a performance examination for the periods January 2009 to December 2024. Verification does not provide assurance on the accuracy of any specific performance report. Note: Blue Current firm AUM has been amended. Ashland Partners & Company verified for the periods January 2009 to December 2016 and ACA Performance Services has verified performance from January 2017 to December 2024. For additional information, please refer to bluecurrentportfolios.com. Blue Current Asset Management is an Atlanta, GA-based division of SCS Capital Management, LLC ("SCS"). SCS is an registered investment adviser based in Boston, MA. Blue Current manages separate account strategies with defined investment objectives styles. SCS's total firm assets of approximately \$52.7B (as of March 31, 2025) include the assets manager by the Blue Current division of SCS (\$619M) as well as those managed by SCS but not by the Blue Current division. All employees who work within the Blue Current division of SCS may also manage assets for SCS outside of the Blue Current division. The firm's list of composite descriptions and broad distribution pooled funds is available upon request. GIPS® is a registered trademark of CFA Institute.
